Dear Brothers and Sisters,

The new year began in January with me (Richard) ending up in the hospital having trouble with my heart. I was retaining water which was taking all my strength and energy from me, but after several weeks of rest and doing as doctors ordered, I now feel much better. Now, once again, I find myself refreshed and ready to be that salt and light and witness for our Lord Jesus Christ (Matthew 5:13-16). I praise God for this downtime. It allowed me to draw closer to Him through His Word and prayer (Hebrews 10:22).

Spring break outreach this year in March with Liberty University students marked our ninth year of doing this! What a blessing it is to take students, who have been trained up in God's Word, from out of the classrooms and into the housing projects of Miami in South Beach to share Jesus Christ and His Gospel. I must say, it breaks your heart to see children crying, begging and asking us not to leave and please come back. One mother told a staff member she had been watching us come and teach and spend time loving on these children for eight years, and no other religious group has ever done that. The mother joined us in prayer for God to send laborers into Liberty Village to teach His Word (Matthew 9:38).

Each night in Miami, we would spend time at Lincoln Road downtown at South Beach sharing the Gospel with adults. It seems as though God is bringing the nations to America. Our team shared the Gospel with over 20 different countries from around the world! I have a better understanding why God tells us to pray to the Lord of the harvest, (1 Timothy 4:1-5) to preach the Word in season and out of season, do the work of an evangelist.

On March 27, Diane took a fall and had several bruises on both legs, as well as her knee and toe. I had to take her to the emergency room two times because of the damage and the pain. It was a very painful 1200 mile-long ride home for Diane from Florida to New York City. Not only did she have a fall but had a lot of pain in the big toe with no clue what was going on. When we got back to New York City, she went to the ER, and they admitted her for three days. They said it was a very severe gout attack. Praise God the red and swolleness was due to gout and not an infected bone. She continues to struggle with the flare up. Please pray for an easing of the pain which is still with her even after three weeks!

God bless - we love you,

Richard
